

Florida Independent Concrete and Associated Products Inc.

16th Annual Convention
July 16—17, 2010

EVENT SCHEDULE

Thursday, July 15th—Arrival and check in. No group activities scheduled.

Friday, July 16th—

8:00am—12noon: Guest Speaker Presentations

8:30—9:00 am: **Michele Stropoli**, State of the Association

Michele will begin the speaker presentations with a glimpse of the past year, through the eyes of FICAP. We will visit events and accomplishments of this volunteer organization and conclude with a look at the future of the Association. Michele is the owner of DMS Management Services, which specializes in small business and non-profit association management. Michele has served in the construction industry for more than 25 years, and as the director of FICAP since May of 2008.

9:00—9:45 am: **Julie Garbini**, RMC Research and Education Foundation

When the RMC Research & Education Foundation was established in 1991, leaders within the concrete industry saw an opportunity to pool resources together to help improve the industry. Today, nine years since the kick-off of the *Building a Strong Foundation for the Future* fundraising campaign, the RMC Research & Education Foundation is growing strong and putting the generous contributions of the concrete and construction community members to work to fund programs that are helping to improve an already superior product in an industry committed to excellence. The mission of keeping the concrete industry forever moving forward has only just begun. Julie Garbini serves as the director of the Foundation.

10:00am—11:45am: **Kraig Kramers**, CEO Tools—Corporate Partners, Inc.

As a **nationally-known speaker** for 20 years, Kraig Kramers speaks to CEOs, universities and management groups **100 times each year**. His topics include tools that dramatically accelerate profitable business growth, tools for doing acquisitions that work and ways to strategically position companies for success. Kraig was recently named Speaker of the Year out of nearly 2,000 speakers by TEC Worldwide, the pre-eminent management coaching firm. Kraig has been CEO of eight companies in widely diverse industries during the past 20 years and he's negotiated over 70 acquisitions in his career, so he speaks on topics that he's personally experienced. He guided a spectacular turnaround at Snapper (lawnmowers) from a \$54 million loss in one year to a profit of over \$13 million the next — during a recession and in a long-term declining industry. Kraig is president and CEO of Corporate Partners Inc., the leading business acceleration consulting firm, based in Atlanta. He also coaches CEOs.
